Dear Chief Canfield,

I want to thank for allowing your agency and members to help other agencies grow and better themselves. You have an amazing asset in Robin Moyer, and her vast knowledge of IMC. My administrative assistant asked Robin if she would be willing to spend some time with her to better learn the system. Without hesitation, not only did she said yes, but offered to come to our department so they could train on our system. She arranged a date without delay and provided exceptional guidance in the areas that we needed assistance in. The information she provided will be truly beneficial to our department and will serve as a foundation to grow on so we can also pass on the knowledge someday and we can all grow as a profession. Please share my appreciation for Robin's service with her.

Respectfully,

Chief Josh Tyrrell

With Thanks

Dear Palie Friends,

I am now an old person! What a wonderful day I had to celebrate. It was great fun for all who were in the car parade.

My daughter and friends kept me in the dark about the days events - Your palie cars leading the parade was so special. Everyone in Wildwood enjoyed the festivities.

Thank you for always being ready to help.

My sincere thanks and prayers for you all

Dear Chief Canfield,

Thanksgiving is a long-established cherished holiday for one reason: It gives families a chance to gather together and give thanks for all the blessings received through the year. The assistance of the police department in directing traffic as people were picking up their Thanksgiving Baskets at the St. Vincent de Paul Pantry made it possible for those in the community who have faced hardship especially with the COVID-19 impact to be able to enjoy a complete dinner on this special day.

We are proud to say that we were able to satisfy 610 requests for Thanksgiving baskets.

Thank you for your continued support and know you are in our thoughts and prayers. We wish you a very Merry Christmas and may you have a Happy, Healthy New Year.

Sincerely,

Verna Jo Carignan  
President
