

STAFF REPORT  
April 12, 2021

**Topic:** Request to designate the odd numbered side of Academy Street a no parking area from Court Street to the northern Leg of Academy Square

**Discussion:** Councilmembers Hamel and Haynes requested that the odd numbered side of Academy Street from Court Street to the northern leg of Academy Square be designated a no parking area.

The east side of Academy Street is already designated a no parking area from Court Street to Hoyt Court.

Drivers, when they park their cars in this area, on the odd side of the street, can block traffic from safely entering Academy Street when there is traffic backed up at the stop sign on Academy Street.

**Fiscal Impact:** The estimated cost of designating this area no parking is \$200 for the required no parking signs. The cost will come out of the Public Works' Department sign budget.

**Staff Recommendation:** City Council approve designating the odd number side of Academy Street no parking from Court Street to the northern leg of Academy Square.

**This report submitted by:** Wesley B. Anderson, Director of Public Works

**Proposed Motion:**

*"I move to approve designating the odd number side of Academy Street no parking from Court Street to the northern leg of Academy Square."*
