Please list below any experiences, skills and/or qualifications which you feel would especially suit you for this position, and your reasons for applying

I have been an IT Project Manager for 20 years and a V.P. of Product Development. I have had a successful career balancing the needs of the various stakeholders with the requirements of the Project. That balance is not only critical in Project Management but also when weighing in on decisions that impact Laconia's heritage. I believe that a city's history and it's traditions are important and must be preserved when it makes sense to do so. Identification of such properties is an essential first step and I am committed to being an active member in this endeavor, if I am allowed on the Commission.

At the age of 57, I have done well enough to be able to retire at the end of this year. When our kids were growing up in Connecticut, time was a precious commodity that prevented me from actively participating with local commissions. My wife Laura and I fell in love with the "City on the Lakes" and knew this would become our final landing spot. I want to give back to a city that has so much to offer.

In your family or professional life, would you have frequent conflicts of interest on cases before the Board/Commission that would require you to recuse yourself?

I have no conflicts of interest that I am aware of.

Can you commit to attending the scheduled meeting(s) every month

I am committed to being a full-time member and will attend the meetings as scheduled or as needed.

---

and possibly occasional extra meetings?

---

Do you feel you can wait to weigh all of the information pertaining to an application before making a decision?

Per my previous statements, my career has been about gathering all information before making a decision.

---

Do you realize there are rules, regulations and laws to follow when making a decision on an application, and that it is not a decision based on your personal feelings?

All decisions that I may be asked to make will be lawful in nature and will follow existing rules and regulations.

---

What is the reason you have applied for this particular Board/Commission?

I want to give back to my community in the best way I know how, by participating in Commission(s) that matchup well with my experience and skillset. The Heritage Commission is an important aspect of a cities identity and I want to be able to assist in protecting any property that may have historical and/or cultural significance.

---

What technical expertise or personal skill or interest would you bring to the Board/Commission?

Other than what I previously mentioned, I am a skilled facilitator. I understand that decisions may differ from mine but I also believe it is critical for all sides to present their thoughts, especially in a respectful manner. I know how to diffuse situations and how to encourage participation.
