

2021 ABATEMENT REQUEST – Staff Notes

Map 367 Block 48 Lot 59 –Antaeus Holdings LTD

The property owner filed an abatement request on their single-family dwelling located at 59 Clinton Street. This residential property is improved with a conventional style building. The property was purchased in June of 2021 for a recorded consideration of \$185,000. They have expressed the opinion that the market value of the property is \$112,840. The market value estimate is a conclusory statement unsupported by any evidence or report.

An exterior review from the street was completed by Mr. Hamilton on 5/5/2022. The general statement contained in the abatement application that total depreciation for the property is not accurately depicted is not supported by any provided or available evidence. The overall condition rating is fair, and the total depreciation represents 50% of the building costs.

Given the claim of inaccurate recognition of deferred maintenance items impacting the valuation of the property, an inspection is necessary. We began the process of contacting the property owner's representatives on March 17, 2022 to schedule such an inspection. Despite numerous requests over the last several weeks no inspection has been provided.

Without having an inspection, any specific condition information, and/or report or analysis to support the estimate of market value provided, it is recommended that no abatement is appropriate at this time, and that the request to lower the 2021 assessed value of from \$161,200 be denied.

SECTION E. Reasons for Abatement Application

RSA 76:16 provides that an abatement may be granted for "good cause shown." "Good cause" generally means: 1) establishing an assessment is disproportionate to market value and the municipality's level of assessment; or 2) establishing poverty and inability to pay the tax. This form can be utilized for either basis of requesting an abatement. The taxpayer has the burden to prove good cause for an abatement.

- 1) If claiming disproportionality, state with specificity all the reasons supporting your application. Statements such as "taxes too high," "disproportionately assessed" or "assessment exceeds market value" are insufficient. Generally, specificity requires the taxpayer to present material on the following (all may not apply):
 1. physical data – incorrect description or measurement of property;
 2. market data – the property's market value on the April 1 assessment date, supported by comparable sales or a professional opinion of value; and/or
 3. level of assessment – the property's assessment is disproportionate by comparing the property's market value and the town-wide level of assessment.

Note: If you have an appraisal or other documentation, please submit it with this application.

- 2) If claiming poverty or inability to pay, state in detail why abatement of taxes is appropriate as opposed to some other relief such as relocating, refinancing or obtaining some alternative public assistance. Ansara v. City of Nashua, 118 N.H. 879 (1978).

(Attach additional sheets if needed.)

Section E. Reason for Abatement Application

Physical Data: The properties are in fair to average condition. The physical, functional, and economic status is not accurately depicted on the tax assessment card. The additional amount of total depreciation for the applicable categories is estimated at 30%. Deferred maintenance is not reflected in the depreciation estimate. A detailed list of deferred maintenance items is currently being compiled for each property. In summary, the tax assessment card does not adequately reflect the overall amount of accrued depreciation based on the current condition of the improvements.

Market Data: Market data is being collected for the property and will be provided in the near future. Given the overall age and condition of the improvements, along with deferred maintenance items, market data does not support the current level of assessment.
