November Financials

The Director noted that the November financials may need revisions after a citywide issue pertaining to the duplication of expenditures in Tyler Munis is resolved. November financials will be accepted at a later date.

FY25 Financials

The Library originally estimated that its FY25 overage would be approximately \$1,800.00 (eighteen hundred dollars) excluding the salary overage which was to be paid with funds from a different account within the City. The Library was invoiced for approximately \$18,000.00 (eighteen thousand dollars) for the FY25 overage because the market rate adjustment for salaries was not figured into the calculation and a thirteenth payment for monthly janitorial services was paid during the fiscal year that was not factored in. The Finance Department added the Library's portion of the market rate salary adjustment in its entirety to the overall budget. The amount budgeted for the adjustment was more than the actual salary overage. Thus, the Library underspent its overall budget for FY25 and no overage is due.
