5. Old Business

5.I. Milfoil Management

D. Anson says that the money for milfoil management in Paugus Bay and Lake Winnisquam has been allocated by the City Council and that work will take place in fiscal year 2018 and fiscal year 2019. Work that will be done in Paugus Bay will be herbicide application (2,4-D) which will be done in fiscal year 2018 and DASH work will be done at the beginning of fiscal year 2019. Discussion about reaching out to private businesses on the lake for contributions to milfoil management is discussed. The LCC will have E. Rathburn put together a list of private businesses to contact. The letters will ask for donations from businesses since they are the prime commercial bodies that are affected by milfoil infestation. E. Rathburn will also send out correspondence to various HoAs (Homeowners Associations) that abutt Paugus Bay since they too will be affected by milfoil. The idea of submitting a letter to the Laconia Daily Sun about milfoil management is discussed and is recieved favorably. The LCC would like for E. Rathburn to invite Richard Tiltol (Milfoil Subcommittee Chairman) to a future meeting to discuss how to go about contacting businesses and private lake owners. E. Rathburn updates the LCC on the progress of having the milfoil management companies contracts signed and sent to their respective companies and the state of the NHDES grant money.

5.II. Fundraisers

This subject was not discussed at the meeting.

5.III. Lake Hosts

The grant from NH Lakes has been received and will cover the weekends work during the season. The trade off for the grant money is that Lake Hosts will need to have volunteer hours filled in kind. Any volunteers for Lake Hosts should contact D. Williams. There will be a Lake Hosts training session in the future and that session will take the place of a future LCC meeting.

## 6. New Business

### 6.1. Lake Cleanup

The LCC discusses the Lake Winnepesaukee Association's lake cleanup that was performed during the winter when there was still ice out on the lakes. The idea that there should be a section about lake cleanup in the letters to the various private and commercial properties on the lake about milfoil is proposed and the idea is received favorably. D. Williams says that there will still be an aquatic camp in the summer for students and the LCC has been volunteered to help which is a good vehicle for lake cleanup education.

## 7. Liaison And Subcommittee Reports

There is currently no Liaison.

Two New Hampshire Department of Environmental Service permits were brought before the permit subcommittee to review and have the LCC Chairman sign.
