DRIVEWAY PERMITS

It's that time of the year when many residents and businesses have begun their plans to have their driveways and parking lots repaved. Driveway permits are issued by Public Works, located at 27 Bisson Avenue. Please keep in mind that obtaining your driveway permit is easier if you have everything the City needs to review your request when you come in.

Larger multi-family complexes (greater than duplex) and commercial property owners must start the permit process at the Planning Department in City Hall to determine if their plans meet City zoning regulations. Please bring a sketch or plans of the existing pavement (if any) and of the proposed pavement. The Planning Department will review the concept to ensure your plans meet the City's green space as well as setback and any other zoning regulations. After ensuring your proposal meets the City's zoning regulations, Planning will notify Public Works that they can issue your driveway permit.

Single family residential and duplex property owners can go directly to the Public Works office to obtain a permit. Please bring a sketch or plans of the existing pavement (if any) and of the proposed pavement. Public Works will review your pavement plan to determine if your plan meets the City's green space and driveway length zoning requirements. Public Works will also review your plan to determine if it conforms with the City's driveway policy. If your plan conforms to the City's driveway policy and meets greenspace and length requirements, Public Works will issue you a permit. If your plan does not meet either zoning regulations or the City's driveway policy, Public Works will explain the next steps that you must take to obtain a driveway permit.

The City's driveway policy is on the City's web site. Click [here](#) to obtain a copy.

Family, Memory, Place: Writing Family Stories

Presenter: Maura MacNeil

A New Hampshire Humanities event hosted by:
Belknap Mill

What family stories do you carry with you? What story do you tell over and over? What landscape do you cherish the most? One of the deepest human instincts is to tell our life stories, to figure out who we are and what it means to be human. This interactive workshop led by Maura MacNeil explores how the landscapes of our lives shape the stories that we tell. Participants explore the themes of family, memory, and place through sample narratives and a series of short writing exercises, gaining a deeper awareness of how their stories can preserve personal, generational, and communal history.

HYDRANT FLUSHING NOTICE

As part of our continued effort to maintain drinking water quality, Laconia Water Department will be flushing hydrants

April 1st through April 12th

While this may produce discolored water, it is not harmful. Simply run the cold water until it clears. There could also be some fluctuation in pressure for a short period of time. If you have any questions, please don't hesitate to contact us.

Our yesterdays

Our sincere thanks to Warren D. Huse, the Laconia Historical and Museum Society, and the Laconia Daily Sun for providing a glimpse into our community's past.....

THEN ...

Fire, July 28, 1950, consumed the Riverside Arena (white building at left center), which had been built in 1820 as a court house, across the street (behind the photographer), but had been moved across the street when the new brick court house was built in 1893-1894. Building at left was built as the Davison Garage in 1921 and later occupied by a number of other businesses. Building at extreme right was the former City Hotel, later Laconia Furniture Co. See this week's '75 Years Ago.' (Laconia Historical and Museum Society)

... AND NOW

Brick building at left is still there, as Landmark Self Storage. Through the years, other occupants have included Folsom's Cadillac Auto Service, W.D. Huse & Sons, Chertok's Laconia Furniture, Co., Groleau Millworks, Top Furniture and Beyond the Belt Martial Arts. The space at far right is now occupied by Walgreens. Masonic Hall, in distance at left, was built in 1952 by Winnipisiogee Lodge, Independent Order of Odd Fellows, on the site of the Riverside Arena. Brick building, in distance at right, is the Perley Canal Mill Apartments, across the river. (Daniel Sarch/The Laconia Daily Sun)

Water Works has contracted with Busby Construction to install a water main from their pump station on Weirs Boulevard that is south of the Ice cream shop to just north of the ice cream shop.

This pipe will connect to another circuit in their system to provide an alternate route in case of future water main breaks in the northern part of Weirs Boulevard.

Similar to the work that Busby Construction did last year on Weirs Boulevard, northbound traffic during the day will be detoured up White Oaks Road while southbound traffic will continue to use Weirs Boulevard. At night, Weirs Boulevard will be open for two-way traffic.

This duration of the project is three weeks, and the daytime detour will be in place for the duration of the project. As always, we appreciate the public's cooperation and patience. Questions? Please call the Public Works Department at 603-528-6379.
