March 2025

The Laconia Fire Department conducts inspections for all ASSEMBLY occupancies as defined in NFPA 101 *Life Safety Code*, currently adopted edition and other relevant Codes, Ordinances and regulations.

These inspections include all safety aspects related to the occupancy and use of assembly areas. Specifically, the inspections deal with:

- ☐ Adequacy, arrangement and accessibility of the means of egress (EXITS)
- ☐ Arrangement and number of emergency lighting within the occupancy
- ☐ EXIT sign placement and visibility
- ☐ Location and adequacy of fire suppression equipment including sprinklers and fixed and portable fire extinguishers
- ☐ Electrical safety, including the use of extension cords and other wiring.
- ☐ Flame spread and materials used in interior finishes, including outside tents
- ☐ Fire alarm system coverage and system testing
- ☐ Heating systems and other mechanical systems that pose a potential fire hazard
- ☐ Removal of snow on stairways and paths that are part of the means of egress (EXITS)
- ☐ Fire rated separations required between occupancies
- ☐ Storage and refuse collection
- ☐ Employee fire safety training

The Laconia Fire Department reserves the right to conduct scheduled annual and periodic, unannounced inspections of places of assembly, during regular operational times to ensure compliance.
