

Adult Craft: Painting Galaxy Pumpkins

Supplies

- Foam paint brush and pallet
- Toothbrush
- Black Paint
- Paint in various colors, metallic and glitter
- Pumpkin

Instructions

Step 1: Paint the pumpkin *black*. Let it sit until it's dryish; it's okay if it's not a fully covered coat, and if it's wet in spots.

Step 2: Use *metallic paints* to dab colors on in swatches of overlapping layers, in thin coats so that some black shows through.

Step 3: Use toothbrush to spatter on *glitter paint*. **You will only need a small amount.**

(optional) **Step 4:** Use paint pens to draw dots, then use a thinner line to connect the dots to form constellations. Paint on the driest places to not get the paint onto the tip of the paint pens (which would make them unusable).
