

Soap Instructions

Ingredients

- ◆ 4 cubes shea butter soap base
- ◆ Soap colorant (a few drops)
- ◆ Soap mold (mold will be shared between multiple people)
- ◆ Pumpkin or apple pie spice (a few shakes)

Instructions

1. Choose a mold, and mark it with your name on a post-it.
2. Microwave cubes in 30 second increments, stirring afterward each time until completely melted.
3. Stir in pie spice, mix well
4. Add a couple drops of colorant, mix well (or not, if you want swirls)
5. Pour the melted soap into the soap mold and allow to sit undisturbed until cool (about 30 minutes depending on size of mold)
6. There are wax baggies available to transport your soap, once set.

While waiting for the soap to cure, you can use the paper supplies provided to make a pretty label, if you choose.
