

# Seed Planting Craft

## Supplies

- Popsicle sticks
- Cups
- Seeds
- Plastic spoon
- Soil
- White squares of paper (for identifying seeds)
- Glue stick or tape
- Markers

## Steps

1. Use a plastic spoon to scoop soil into cups. If you want to keep your flower in the cup, put a few small rocks in the bottom first, so the cup has drainage.
2. Push your finger into the soil to make a hole for the seed.
3. Put the seed into the hole you just made (check the seed packet to see how deep the seed should be planted).
4. Cover the seed with soil.
5. Draw a flower or write the name of your flower on the white piece of paper and glue (or tape) it to the popsicle stick. Put the popsicle stick in the soil next to where you planted the seed.
6. Watch it grow!
