

MAGIC WANDS

MATERIALS

- 1 good stick from the ground
- Ribbons
- Wet glue: liquid or hot glue
- Yarn
- Embroidery floss
- Jewels or beads
- Shells

STEPS

1. Go outside and find a good stick for a wand. (Take one from the ground; don't break it off a tree!)
2. Gather all the things you want to attach to your wand.
3. Cover your table with newspaper.
4. If you have a glue gun, ask your parent to heat it up, and to help glueing.
5. Wrap any ribbon, embroidery floss or yarn around your wand in a nice pattern. (I did diagonal stripes. You can do any way you want to.)
6. Add streamers to the top by gluing or tying them on.
7. Glue on beads, shells, or small rocks along the wand. You can add them to the top or bottom as well.
8. If you are using wet glue, balance your wand so it lays side up when you glue. **LET IT DRY!**
9. **When dry, make a wish!**
