

DRAGON EGGS

MATERIALS

- Air dry clay
- Paint
- Paintbrush
- Toothpick
- Beads, sequins, shiny things

STEPS

1. Mold clay into egg shape.
2. Add any scales or other embellishments to your egg with a toothpick.
3. Paint your egg.
4. Add beads and other sparkly things to your egg.
5. Give it some time to dry (this might take several days), but the air will dry the clay, so you won't need to heat it up.
