

# Creative Doodling

## SUPPLIES

- Paper tile
- Eraser
- Pencil
- Scrap paper
- Pen
- Colored pens

## INSTRUCTIONS

1. With pencil, place a dot lightly in each corner, allow space for a border
2. Connect each dot with a line — not a straight line, no need for rulers
3. Draw a "z" or "s" shape through the box to create sections
4. Using pen, select a section and draw a simple repeating pattern to fill it in.
5. Repeat for next empty sections
6. Using pencil, shade parts of drawing to create depth—blend with finger
7. (optional) Color in shapes with colored pens for alternate look
8. Use eraser to clean up edges
9. You can make more than one if you want, but this is meant to take time. Try to slow down while doodling and enjoy the process.
